Anleitung - Schaufensterfolie

Deutsch

Die Glasscheibe muss frei von Fett und Staub sein. Wir empfehlen die Schaufensterfolie innerhalb von zwei Wochen nach Erhalt anzubringen.

Français

Le verre doit être exempt de graisse et de poussière. Nous recommandons d'appliquer le film de fenêtre dans les deux semaines suivant sa réception.

Italiano

Il vetro deve essere privo di grasso e polvere. Si consiglia di applicare l'adesivo per vetrine entro due settimane dal ricevimento.

Türkçe

Cam, yağ ve tozdan arındırılmış olmalıdır. Cam filmi, alındıktan sonra iki hafta içinde uygulamanızı öneririz.

English

The glass must be free of grease and dust. We recommend applying the window film within two weeks after receipt.

Español

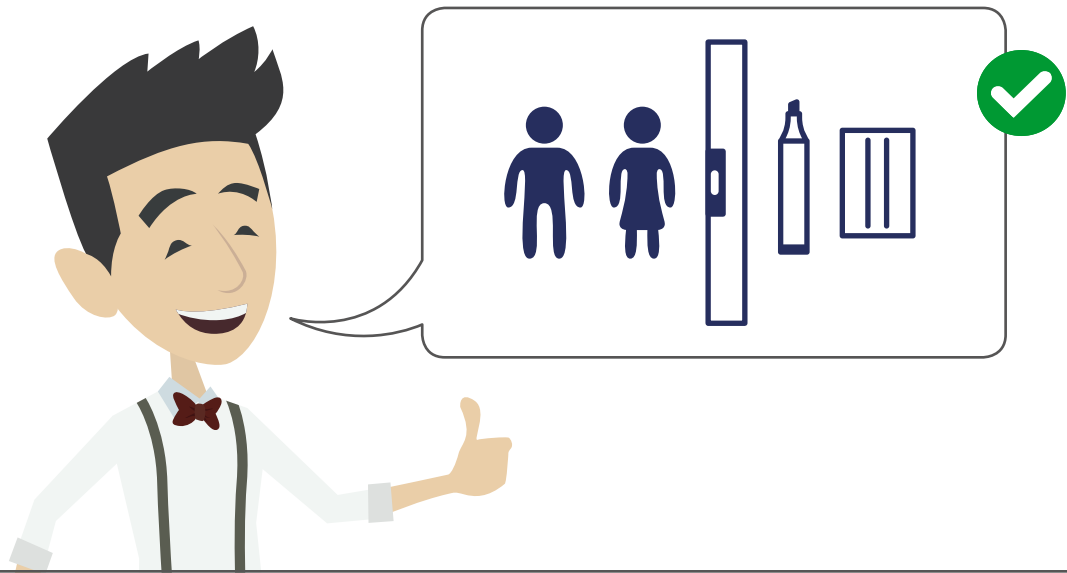

El cristal debe estar libre de grasa y polvo. Recomendamos aplicar la película para ventanas dentro de las dos semanas siguientes a la recepción.

Polski

Szkło musi być wolne od tłuszczu i kurzu. Zalecamy naniesienie folii okiennej w ciągu dwóch tygodni od daty otrzymania.

Nederlands

Het glas moet vet- en stofvrij zijn. Wij raden u aan de raamfolie binnen twee weken na ontvangst aan te brengen.
